The drawing shows a mechanical assembly with a base plate (90x120) and a vertical support (120). A horizontal arm (65) is attached to the base, with a Ø50 hole. A vertical arm (Ø40) is attached to the support, with a Ø70 hole. A flexible hose (4-16) is connected to the vertical arm. The hose has a maximum length of 12 and a maximum diameter of 18. The total height of the assembly is H max. A table provides the maximum length (L) for different maximum heights (H max):

max	L
370	570
600	800
